

Committee of Adjustment

CONSENT

INFORMATION/GUIDELINE

The following is preliminary information only

What is Committee of Adjustment?

The Committee of Adjustment is comprised of Thunder Bay citizen members, appointed by Council, and given authority for certain approvals and/or permissions in accordance with the Planning Act. These approvals and/or permissions relate to minor changes to zoning regulations and permissions related to legal-non conforming uses. The Committee also grants consents (land severances) to sever a parcel of land into more than one lot, or as addition to abutting properties (boundary adjustment); and permit enlargements.

What is Consent?

Consent is the authorized separation of a piece of land to create a new lot or a new parcel of land. This is also commonly known as land severance. In addition to the division of land; rights-of-way, easements, and any change to your existing property boundaries also requires land severance approval. In considering each application for land severance, the Committee of Adjustment will evaluate the merits of each proposal while considering criteria such as:

- The intent and purpose of the Official Plan and Zoning By-law;
- Relevant servicing policies of the Official Plan;
- Compatibility with adjacent uses of land;
- Adequacy of vehicular access;
- Risk to public health or safety or of property damage;
- Protection of natural heritage features.

How to Start?

Before you make a Consent application, it is recommended that you to consult with the Planning Services Division staff. Staff will be able to explain the process, outline the submission requirements, and list any other applicable permits and approvals that may be required. A scheduled appointment is suggested for inquiries at (807) 625-2538.

Consent Application Requirements

- 1) Completed Application Form (available at the Planning Services Division or online www.thunderbay.ca)
- 2) Site Plan (8.5" x 11")
- 3) Application Fees

Application Fees

Fees are outlined on the application form and are to be paid at the time an application is submitted.

Submission of a Complete Application

The application form sets out the information that must be provided by the applicant, as prescribed in the schedules to Ontario Regulation 197/96 made under the *Planning Act*. The City of Thunder Bay will consider the application to be 'complete' when accompanied by the prescribed information. The submission of an incomplete application may result in delays in the processing of the application. If any required supporting material (including necessary reports, sketches, plans and fees) is not provided, the City will return the application or withhold its processing until the supporting material has been provided.

Specialized Studies

The City may require additional information to ensure conformity with provincial and other regulatory documents. This requirement may be determined based on the location of proposed development, or following a site inspection whereby potential hazards or conditions that require further consideration have been identified. Specialized Studies may include: Environmental Impact Study, Land Use Compatibility Study, Hydrological and/or Geotechnical Assessment, Traffic Assessment, Noise Impact Study, Lake Impact Study, Heritage Impact Study, Archaeological Report, or other study deemed necessary to demonstrate that the proposal will not negatively impact the public or the natural/built environment.

Committee of Adjustments Decision

Any person or public body has the right to appeal the Committee's decision to the Local Planning Appeal Tribunal (LPAT). The appeal must be filed with the Secretary-Treasurer of the Committee of Adjustment within 20 days of the date of the mailing of the decision. If an appeal is received, the entire matter is forwarded to the LPAT, and the LPAT will arrange a new hearing. The decision of the LPAT is considered final. At the end of the 20-day appeal period, if there has been no appeal filed, the decision will become final and a notice to this effect will be issued. The Committee of Adjustment is authorized to impose conditions on the decision. All conditions imposed by the Committee must be fulfilled to complete the process.
