

**Series 183 - Port Arthur Negotiation, Conciliation & Arbitration Files**

**Port Arthur Fonds**

1937, 1951-1968

60 cm. of textual records

---

The series consists of correspondence, mainly with the Department of Labour regarding personnel and union matters as well as hearings, briefs, negotiations, agreements, copies of medical plans and other data primarily relating to transit and waterworks.

Records appear to have been created or maintained for the most part by the Personnel Officer for the City of Port Arthur, as well as some by the Manager of the Public Utilities Commission.

The original filing scheme of these records was reconstructed during archival arrangement on the basis of file titles.

A\*

A detailed file list is available.

Further accruals are not anticipated.
