

1875-1930

32 cm. of textual records, 1 blueprint

---

By-Laws to appoint Engineers for the Town and City of Port Arthur were made and approved as needed and a number of individuals were appointed over the years.

This series contains records generated in the offices of the City Engineer and consists of files arranged alphabetically under the categories General Correspondence, Correspondence with City Officials, Correspondence re Construction and Land Descriptions. The subjects covered include sewer and water issues, construction, descriptions of city properties and property acquisitions.

A

A detailed file list is available.

Further accruals are not anticipated.
