---

One of the responsibilities of the Municipal Clerk for the City of Port Arthur was to maintain the records of the proceedings of Council. Charged with this responsibility, it appears that the Clerk, or his designate maintained an index to the resolutions which were brought forward at Council meetings; a resolution being a record of a decision on a form of action agreed to by vote of Council.

The indexes, which comprise this series are arranged alphabetically by resolution topic. Each entry includes a resolution number, the date, another number (it is unclear as to what the second number represents; the numbers do not coincide with page numbers in the Council Minute Books or By-Law Numbers) and a brief synopsis of the resolution.

Two volumes, Handwritten

A

Further accruals are not anticipated.
