

1911-1915

5 cm. of textual records

In 1911, the City of Port Arthur passed By-Law 541 to levy a special rate upon lands fronting or abutting all streets upon which water mains were laid. The annual rate was based on the frontage of the lands and at that time was charged at five cents per foot of frontage. This series consists of one register that was used to record the information relating to this levy.

The register covers Ward 2 in the City of Port Arthur from 1911 to 1915 and includes an Alphabetical Index by Street, that is located at the beginning of the volume. Information recorded includes the owner, app. no. park lot, lot or subdivision, frontage, assessed frontage, annual payment, remarks and the folio in the Collector's Roll where entered each year.

A*

Further accruals are not anticipated.
