SUBJECT: Decisions of the MECG – Relative to the Hosting of Evacuees
Committee of the Whole – June 1, 2020

The Municipal Emergency Control Group (MECG) is responsible for overseeing emergency response and taking appropriate action for the safety of citizens in emergencies. One area that I believe it is important for City Council to be aligned with relates to the hosting of evacuees when emergencies strike their communities. The MECG currently is charged with assessing Thunder Bay's ability to host evacuees and communicating that ability to the province. While I appreciate and understand the importance of the City's Emergency Plan and how the MECG functions to respond to evolving situations, I believe it is important for City Council and the community, where feasible, to be more engaged and informed in all decisions regarding the City's ability to host evacuees.

As such, it is my request that City Council direct administration to bring back information and recommendations on how City Council could be more engaged in decisions and communications with respect to the hosting of evacuees. I recognize the need for many decisions to sit with the MECG due to the tight timelines that exist in a local emergency, where quick decisions are a necessity, but believe there are some circumstances in which City Council has a greater role to play in hosting decisions.

In conclusion, I provide the following motion for Council's consideration:

With respect to the City of Thunder Bay's Emergency Plan and the work of the MECG we recommend that Administration report back to City Council with information and potential recommendations on how City Council could be more engaged in decisions pertaining to the hosting of evacuees:

AND THAT this report be received on or before June 22, 2020;

AND THAT any necessary by-laws be presented to City Council for ratification.
