→ All selections shall be made in accordance with the *Cross Connections and Backflow Prevention* regulations in Section 4 of the City's Waterworks By-law. The City has jurisdiction over all selections.
 → The person/company conducting this assessment is required to submit the original copy of this report to the City and a copy to the owner of the premise.
 → A building permit will be required pursuant to the Ontario *Building Code Act* as amended to install a backflow prevention device. The provisions of the *Act* pertaining to such Building Permits continue to apply to each installation in addition to the provisions of this By-law. Permits are required for devices as noted in the *Cross Connection Assessment Form*.
