

This form is used to confirm approvals from other agencies that are required before a building permit can be issued.

Application No:	Address:	Date:

The Building Code Act prohibits the issuance of a building permit if the proposed construction or demolition will contravene an applicable law as defined by the building code. The questions below will help you to determine if an applicable law applies to your project. No timeframe for building permit review can be established until all required applicable law approvals are completed and the approval documents are submitted to the Building Services Department.

If the answer is YES to any question, the relevant approval documents must be submitted with this permit application. Where any required approval has not been obtained, the agencies listed on the back of this form must be contacted to obtain approval and the declaration on the bottom of this form must state accordingly.

Approvals from other agencies are required in many instances before a building permit can be processed and issued. These approvals are **not** administered by the Building Services Division. The fastest way to obtain a building permit is to ensure all of these other approvals are completed (or do not apply) before applying for a building permit. The Building Services Division is required by law to prioritize applications that are fully complete in terms of applicable law approvals and document submissions. Building permit documents must be consistent with applicable law approvals.
