

What is a BPSO?

The Best Practice Spotlight Organization® (BPSO®) designation is a longstanding knowledge translation strategy that helps optimize health outcomes at the individual, organizational and health system levels. This program gives health service and academic organizations the opportunity to formally partner with RNAO – or an approved "Host" organization – to achieve "designation" as a BPSO. The BPSO designation can then be renewed every two years after meeting specific deliverables.

This internationally renowned program's strategic approach has been proven to trigger evidence-based cultures, improve patient experience and health outcomes, lower cost of care by preventing complications, and enrich staff satisfaction.

With the integration of our Electronic Reporting System, Point Click Care, we also implemented RNAO's Clinical Pathways. They promote safe, high-quality resident care, improve staff efficiency and support legislative and regulatory

compliance. Please see the link for more information on Clinical Pathways.
