

4- Neebing Evening Service: By-reservation transit service for Neebing Ward residents using Route 4

Because late evening service hours are suspended on Route 4, beginning Monday, April 6, 2020, Thunder Bay Transit will deliver dedicated by-reservation transit service in the evening to help passengers who normally rely on Route 4 for their transit trips.

The service will operate using LIFT+ specialized vans with pick-up times between 6:30 p.m. - 10:45 p.m. Monday - Saturday.

Riders will be required to request their travel arrangements at least one (1) day prior to their trip. Reservations will be accepted starting Sunday, April 5, 2020. Please contact Thunder Bay Transit's LIFT+ booking line between 10:00 a.m. and 4:00 p.m. at 807-345-0777. The booking process will confirm the origin and destination and identify any accessibility requirements.

To allow for physical distancing, each van will carry a maximum of three customers at a time. Due to reduced seating capacity and fluctuating service demands, trips may be limited based on the availability of vans and may be subject to drop off/pick up time adjustments. Please remember that seat belts must be worn on all LIFT+ vans.
