

*all you need is a deck of cards..*

# TENS GO FISH!

1. 5 cards are dealt to each player (a group of 2, 3 or 4 people). The remaining cards are messed up, face down between the players. Players hold their cards so they are able to see them, but no one else can.
2. **To start, players will look at their 5 cards and see if they have any that add up to exactly 10. If so they will remove those cards from their hand - this give them a point. Replace those cards with cards from the middle pile.**
3. Starting with the youngest player, the player asks one of their opponents "Do you have a \_\_\_" to try and make 10 with other cards in their hand. If they do, the opponent will give the player that card, and if the player can make a 10, repeat step 2!
4. **This continues to the next player and goes until all the cards in the middle are gone/ no more moves can be made! The player with the most 10's wins!**
